District Attendance Area Transfers

Each student in the district is required to attend the school designated for the geographic attendance area in which he or she resides.

A parent or guardian may request that his or her child be allowed to attend another school in the district. Requests must be submitted, in writing, to the principal of the building at which the student is currently assigned.

Transfers may be granted if:

- A. A financial, educational, safety, or health condition affecting the student would be reasonably improved as a result of the transfer;
- B. Attendance at another school in the district is more accessible to the parent's place of work or to the location of child care; or
- C. There is some other special hardship or detrimental condition affecting the student or the student's immediate family which would be alleviated as a result of the transfer. Special hardship or detrimental conditions may include a student who moves to a new attendance area in the district during the school year.

The principal of the currently-assigned school will consult with the principal of the school to which the student desires to transfer to determine:

1. Whether space is available in the grade level or classes at the building in which the student desires to be enrolled;
2. Whether appropriate educational programs or services are available to improve the student's condition as stated in requesting the transfer; and
3. Whether the student's transfer is likely to create a risk to the health or safety of other students or staff at the new building.

Transfers will be granted if the student is a child of a full-time certificated or classified school employee to the school in which the employee is assigned, or to a school forming the district's K through 12 continuum which includes the school to which the employee is assigned, unless:

- A. The student has a history of convictions, violent or disruptive behavior, or gang membership;
- B. The student has been expelled or suspended from school for more than ten consecutive days; or
- C. Enrollment of a non-resident child would displace a child who is a resident of the attendance area (the resident child must be permitted to remain enrolled until he or she completes his or her schooling).

Transportation will not be provided for students attending another school because of an in-district transfer.

Approval of an in-district transfer is for one year only, and the request must be renewed each year.

If the request for transfer is denied, the parent or guardian may appeal to the Superintendent, or designee, for review of the decision by the building principals.
