

ONLINE LEARNING

The University Place School District Board of Directors acknowledges that some students (e.g. students who are credit deficient) may benefit from the opportunity to take online courses and programs.

The board directs the superintendent to provide information to parents, students and staff regarding online learning options and the guidelines for participation.

The superintendent or designee will develop procedures to implement this policy. The procedures will include, but not be limited to, a description of student access to online learning courses/programs, student eligibility criteria, the types of online courses available to students, methods the district will use to support student success, payment of course fees and other costs, granting of course credit and conditions under which no credit will be awarded.
